

ALLIANCE SUPPORT

We believe in the power of mutual support. The wider the platform to combat the anti-poor forces, the stronger it is. That is why the Centre, ever since its inception, has supported various alliances of people, groups, and organizations. By encouraging participatory research, contributing to critiques of dominant policies, developing alternatives, facilitating informed debates and new practices, the Hazards Centre has been able to participate in the building of several collaborative efforts. Some of the alliance groups we work with are:

Right To Food Campaign

All India Kabi Mazdoor Mahasangh

National Forum for Housing Rights

Sustainable Urban Mobility (networking)

Campaign For Judicial Accountability

Climate Change Network
